## TO ALL PIONEER FAMILIES OF GEORGETOWN DISTRICT

Many Georgetown pioneers settled in the district around the late 1800's. Our fore parents with their five siblings ventured in around 1888 and played out their lives in Georgetown. Like many other of their vintage, they lost their location and identity in the 1956 floods, which destroyed parts of the Georgetown cemetery.

In 2011, we the Edwards family, with the kind support of the Etheridge Shire Council and the populace of Georgetown where given the opportunity to re establish our identity and repay our debt to the district.

Our project – To construct a pioneer wall identifying the cemetery and providing a location for the lost souls of all those unfortunate families similar to ours.
